About Holistic Management International

HMI is an Albuquerque-based, international nonprofit organization that saves and restores damaged land around the world. Our slogan, "healthy land, sustainable future," reflects our philosophy of educating land stewards about smart land use, while assisting them to enhance the land's natural productivity. Holistic Management is practiced on over 30 million acres worldwide.

About Ian Mitchell-Innes, Holistic Management® Certified Educator.

Ian Mitchell-Innes is a South African whose family has been on the same ranch since 1863. He has practiced all forms of ranching and farming: growing crops, feedlotting, conventional extensive ranching, irrigated tropical and cool season grasses. At the age of 48, Ian settled into practicing Holistic Management. He is now a Holistic Management® Certified Educator.

Can't make one of these workshops?

Visit the HMI website to find out about other workshops or to find out how to get a Holistic Management consultation on your land.

Texas Workshops

What: Consulting Field Day

This one day session will provide a great hands-on introduction to Holistic Management by participating in an actual consulting session between ranch management and Ian Mitchell-Innes. You'll see how the benefits of Holistic Management can be achieved by land and grazing planning, financial planning, and biological monitoring.

When: May 2, 2011, 10:00 a.m. - 4:00 p.m.

Where: Ford Ranch, Brady Texas

Cost: \$50.00 per person

What: Holistic Management, High-Density Grazing, and Financial Planning Concepts

This class is geared towards the basics of Holistic Management with three days of tips on getting the most pleasure, profit and performance from your land.

When: May 3 - 5, 2011, 8:00 a.m. - 5:00 p.m. each day

Where: Ford Ranch, Brady Texas

Cost: \$400.00 per person, \$700.00 for two people from the same organization (Price includes lunch each day)

What: Mob Grazing Workshop

Learn all about Holistic Management, High Density Planned Grazing and how to stay on track with maximum animal performance with forage production while you increase the health and vitality of your land.

When: May 7, 2011, 10:00 a.m. to 4:00 p.m.

Where: San Antonio, Texas

Cost: \$100.00 (Price includes lunch)
